

December 17, 2008

Dear David,

Working with Greater Ebiz to develop our website has been a refreshing experience. Having previously worked for much larger companies with many layers of bureaucracy, it has been a pleasure to be able to pick up the phone and have my questions and concerns addressed quickly and efficiently. In most cases, changes requested have been implemented in 24 hours or less. You have done a fantastic job of merging the website design and message with our consumer literature pieces. I would be happy to recommend your services.

Mary Ann Eifert
